General partner and organizer: FORMULA 7, BRP distributor in Russia

# Can-Am X Race Information

## About the series:

Can-Am series was launched in 2009 as ATV trophy series and later on developed into cross country rally.

Can-Am X Race is considered the largest and the best ATV and SSV series in Russia.

Can-Am X Race is a cross-country rally only for ATV (all-terrain) and SSV (side-by-side) vehicles. No cars or trucks. This is an off-road race, which consists of several special stages with average length of 400-600 km each. Each stage of Can-Am X Race is traditionally held in a different regions of Russia to attract new participants to powersports as well as turn up the heat among our permanent participants.

The stages of Can-Am X Race cross country rally series are held as traditional competitions, included with the corresponding status into the sports calendar of Russian Automobile Federation (RAF calendar).

2nd and 3rd stages of Can-Am X Race 2018 are also the stages of Cross-country Rally Russian National Cup (T3 category).

# Can-Am X Race Information

Why we are doing the series:

- Promote powersports to wide audience.
- Strengthen Can-Am brand positions on the Russian powersports market.
- Build powersports culture in Russia.
- Contribute to healthy and active lifestyle.
- Develop and strengthen international relationships in powersports.

# Classes: ATV

**ATV** (All-Terrain Vehicle) – factory-made off-road vehicle not intended for permanent usage on public roads.

More rigid requirements are specified towards the personal gear and equipment for ATV sportsmen: it is mandatory to use chest and back protection, neck protection, motorcycle-type boots – protective boots with high bootleg.

The team in ATV category includes: 1 pilot on 1 ATV unit.

# Classes: SSV Standard

**SSV Standard:** Factory-made SSVs with side-by-side seating, manufactured in a series no less than 2000 identical units.

SSV Standard class may include non-turbocharged SSVs with standard suspension and standard wheels.

The team in SSV category includes two sportsmen (pilot and co-pilot) using one SSV unit.

# Classes: SSV Sport

**SSV Sport** Factory-made SSVs with side-by-side seating, manufactured in a series no less than 2000 identical units.

SSV Sport class may include both air-breathing and turbocharged SSVs with standard suspension and standard wheels, overall width measured by wheels – up to 1700 mm.

The team in SSV Sport category includes two sportsmen (pilot and co-pilot) using one SSV unit.

# Classes: SSV Super Sport

**SSV Super Sport:** Factory-made SSVs with side-by-side seating, manufactured in a series no less than 2000 identical units.

SSV Sport class may include both air-breathing and turbocharged SSVs with any suspension, overall width measured by wheels – up to 2000 mm.

The team in SSV Super Sport category includes two sportsmen (pilot and co-pilot) using one SSV unit.

# Classes: Adventure

**Adventure:** Tourist group with less rigid technical requirements. Both ATV and SSV riders are allowed to participate.

Cultural navigation, quests, treasure hunting and exciting adventures are prepared for new participants of Can-Am X Race. Adventure class crews will also cover a segment of sport trail prepared for the Sport class, but speed will not be the defining factor.

# Can-Am X Race 2018 agenda (draft)
